Ten-Day Retreat for Cross-Cultural Workers June 19 - June 29, 2013 in Switzerland

Breathe is a 10-day retreat designed for the renewal of singles, couples or families who serve cross-culturally and is intentionally created to give you space in a tranquil setting. *Breathe* is led by Dr. Daniel and Lori Hahn of [Catalyst Int'l](#), an organization committed to supporting those who work in highly challenging global settings. *Breathe* is staffed by pastors, member care counselors, medical and massage professionals and others who care for those who work on the front lines.

Breathe is held at **Crede**, a Christian conference center located in Wilderswil, Switzerland (nearby Interlaken). Crede has a majestic view of the Jungfrau, Eiger and Mönch. Situated in the heart of one of Switzerland's most breathtaking regions, there are opportunities for hiking, cycling, rock climbing, a high ropes course and other outdoor activities. Crede has 125 beds (most rooms have showers and toilets en-suite or in the hall). There is a playground, soccer field, volleyball court, and terraces with panoramic views of the Alps. Crede's kitchen staff prepare excellent Swiss meals (breakfast, lunch and dinner). The charming Swiss village of Wilderswil is a five-minute walk from Crede.

We have a loving nursery care program for infants and preschoolers. Elementary children participate in morning and afternoon classes filled with stories, crafts, games, music, and fun activities. Teens take part in discussions centered on relevant topics relating to TCKs and in addition to hiking, rock climbing, playing volleyball, and hanging out around the camp fire.

"We came to Breathe from a work and living situation which has been exceedingly stressful. We felt like we no longer had anything useful to give out to others without first feeding and renewing our selves. The teaching and counseling has met the huge hunger and thirst of our souls. We have never experienced such a concentrated outflow of love and concern. All have contributed to a very memorable and enriching ten days. It has been a time of rest and healing for our body and soul." - Workers from the Middle East
